What is Unlimited Breath?

Unlimited Breath is an easy to learn Natural Breathing technique that can bring about profound changes in your life; the very changes you’ve been trying so hard to create.

This method of breathing can help you resolve your past, heal physical issues, and establish new patterns to achieve your goals, dreams and live a meaningful life.

Chances are, that as you are reading this, you are breathing. Breathing is the one thing we cannot do without for more than a short time.

Unfortunately you are probably only breathing at about 20% of your lung capacity.

We know that if we want to calm ourselves we can take deep, slow breaths. We know that if we need a lot of energy for activities like running we have to take great big, fast gulps of air. Many of us know the peaceful sound of a loved one’s sleeping breath.

Wondrous things can “take our breath away,” and some behaviors can get someone tagged a “heavy breather”. We take a deep breath before we dive in. When we start practices like yoga we find special ways of breathing.

As millions have already experienced,

Arne began his healing career, over 30 years ago, working extensively with Western medicine. Dissatisfied with the temporary results of symptomatic healing led him to study with the most prominent healers in the Contemporary Healing Arts. He became a Teacher of Rebirthing, the International Seminar Leadership Program directed by Bob and Mallie Mandel, Body Harmony, trained by Dr. Don McFarland, and the Loving Relationships Training under the guidance of Sondra Ray. Arne spent 5 years as a Tibetan Monk, which deeply influences his approach to profound healing.

Today, Arne is committed to creating a healthy, wealthy, happy, and inspirational world.
